

## 2019 Seeds for Bees Cover Crop Program

# Guidelines and Enrollment

*Seeds for Bees* encourages the use of cover crops to increase the density, diversity, and duration of bee forage in California orchards, farms, and vineyards, while improving soil health. The seed mixes available through Seeds for Bees are designed to bloom at critical times of the year when natural forage is scarce but managed and native bees are active. Seeds for Bees serves the needs of bees, beekeepers, and growers, increasing sustainability of pollination and agriculture.

## Guidelines

- 1st year Seeds for Bees enrollees are eligible for a \$2,000 discount off their total seed purchase.
- 2nd year enrollees are eligible for a \$1,000 discount off their total seed purchase.
- Shipping is always free for all orders throughout the enrollee's participation in Seeds for Bees.
- Project Apis m. seed mixes are available for purchase at any time of the year. Custom seed mixes are available upon inquiry. Pricing is subject to change annually.
- A limited number of new enrollees will be accepted each year based on available funding.
- Project Apis m. has sole discretion for final enrollment decisions.
- Project Apis m. has the right to refuse any applicant at any time.

## Enrollment

To enroll in the SFB program enrollees must:

- Reside in California
- Complete an [application online](#) or [download](#) and complete a paper application and mail to:  
Project Apis m. Attn: Seeds for Bees Applications  
PO Box 26793, Salt Lake City, UT 84126
- Grow honey bee pollinated crops (including seed production), nuts, or fruits.
  - Growers of wind pollinated crops may be considered for enrollment based on additional information provided in grower's application.
- A short phone consultation with the Seeds for Bees program manager is required as the last step to finalize a participant's enrollment if accepted.

2019-2020  
ENROLLMENT  
OPENS  
JUNE 15, 2019
