

Project *Apis m.*

Welcome to our new monthly eNews.

We're excited to share impact stories and the latest news in an easy-read format. It takes a hive mind to solve the issues facing honey bees today. Project Apis m. supporters are doing just that. Hundreds of honey bee health research projects. Forage programs spanning 12 states. Millions of dollars invested by generous people and organizations who believe protecting managed honey bees and all pollinators is urgent. Appropriately, this month's theme is Collaboration.

BUILDING PARTNERSHIPS

The Apiarist and Orchardist Accord

A good relationship between beekeepers and farmers is the linchpin to protect bee health and promote robust pollination. This historic collaboration finds multiple benefits in communication and cover crops. John and Jason Miller of Miller Honey Bees and Nick Edsall of Bullseye Farms share their advice.

Thinking Outside

BUZZ FROM THE HIVE
\$1 per hive

THE BIP BOX
2017-2018 Colony

the (Shipping) Box

Healthier hives and healthier beekeeping businesses need healthy queen bees. Dr. Pettis' research exemplifies applying scientific research to a problem which is effecting honey bees and agriculture in a tangible way.

Broker Challenge

The annual almond pollination event is now in our back pocket. Many bee brokers and keepers have met the challenge and contributed \$1 per hive to Project Apis m. to fund practical research and bee forage. Their impact: help mitigate some of the toughest problems that plague our bees.

Their impact: help mitigate the toughest problems that plague our bees. Our sincere thanks to Joe Traynor and Pat Heitkam for leading the way!

Loss Survey Results: What Can We Say?

US Beekeepers report over 40% annual loss in the Bee Informed Partnership's 2017-2018 survey. This survey, now in it's 12th year, highlights the continued struggles of beekeepers nationwide and reflects the large time and financial investments that are needed to maintain a pollinator force for our agricultural system.
