

Project *Apis m.*

BUZZWORD

SPRING 2023

Pollinator Week is June 19th-25th.

We're celebrating Pollinator Week with the theme "Honey Bee MVPs".

Let's showcase honey bees and the beekeepers doing the heavy lifting to pollinate the food we eat.

There's a story to tell and we want to share it!

From the Lab to the Field:

Project *Apis m.* Funds Five New Research Projects With Healthy Hives.

Project *Apis m.* recently called for proposals (RFP) for the Healthy Hives research initiative. Healthy Hives was created in 2015 to identify tangible solutions to improve honey bee colony health in the U.S. and find ways that commercial beekeeping operations can improve production and efficiency while reducing costs...

DONATE NOW

Together we can "move the needle in the right direction for honey bees"

PAm was founded by beekeepers and growers for beekeepers, growers, and honey bees. **Your support** is an investment in practical, innovative research and habitat projects that directly support honey bee health, beekeeper tools, and industry collaboration.

Wisdom from the Hive Mind

Do you have a comment or suggestion that you'd like to share related to honey bee health, our research or forage programs, or a burning question you've always wanted to ask a beekeeper or researcher? What topics are you most interested in? Follow the link [here](#).

Project Apis m.

Dedicated to enhancing honey bee health and crop production.
